## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "the means for moving the carrier" of claim 22, "an outer sleeve and bearings" of claim 24, "a body member and a means for clamping the body member" of claim 26, "routers planner" of claim 31, and "a sander" of claim 32 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

2. Claim 26 is objected to because of the following informalities: The word "retraining" should be replaced with "retaining". Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 22-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. In regards to claim 22, the phrase "means for moving said carrier" is unclear. It is uncertain if this means for moving is the rack and pinion (32 and 33) or if it is a means

Art Unit: 3724

to move the carrier past the blade. Also, it is unclear what the structure of the apparatus is. It is unclear if the groove is a part of the carrier or if the plurality of guiding devices are fixed to the carrier.

6. In regards to claim 26, it is unclear what the means for clamping the body member is. There is one clamp and it is for clamping the work piece (31). Therefore, it is also unclear what the body member is. There is no other member that is clamped.

7. In regards to claim 27, the "beam transversely movable" is unclear. It is uncertain if the "beam" is rod (36). Also, it is uncertain if just the beam moves or the entire means for clamping and the beam transversely move.

8. In regards to claim 28, the "stop member with the beam " is unclear. Assuming that the stop member is (40) and the beam is (36), it is uncertain how the stop member is with the beam. It is also uncertain how the beam and stop member cause the work piece to move.

9. In regards to claim 33, it is unclear how the carrier and the guide means cause operation of a cutting tool.

10. It is to be noted that claims 22-37 have not been rejected over prior art. It may or may not be readable over the prior art but cannot be determined at this time in view of the issues under 35 USC § 112.

### ***Conclusion***

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mueller et al.
